

Colour Guide

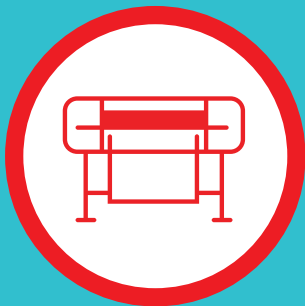

We speak **sign** language

If you're looking for a supplier who really understands the sign industry, talk to Total. We're completely fluent when it comes to signage. We live and breathe signs. We dream about signs. And there's no one who knows the industry better than we do.

Since 1962, our business has been serving the Graphic Art and Sign Industries under various entities such as Letraset NZ and Esselte NZ. And in October 2014, Total Supply was acquired by Spicers NZ, allowing us to utilise Spicers' local infrastructure and additional products.

But Total Supply continues to operate independently. Same team. Same service. Same culture. That's why we're New Zealand's foremost sign industry supplier, committed to delivering you quality, cost-effective products and service.

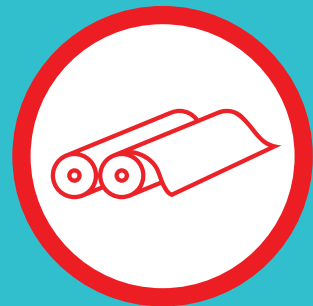

So whatever your company could possibly need to be at the cutting edge of sign technology, talk to Total. Because we speak your language.

3M Series 7930 sheeting exceeds engineer grade specifications and is a great choice for all types of non-critical traffic signs. Its seven-year useful life and excellent colour rendition result in best-in-class performance. The new micro-seal prismatic technology behind 3M Engineer Grade Sheeting produces a material that is more visually appealing than other Engineer Grade Prismatic Materials.

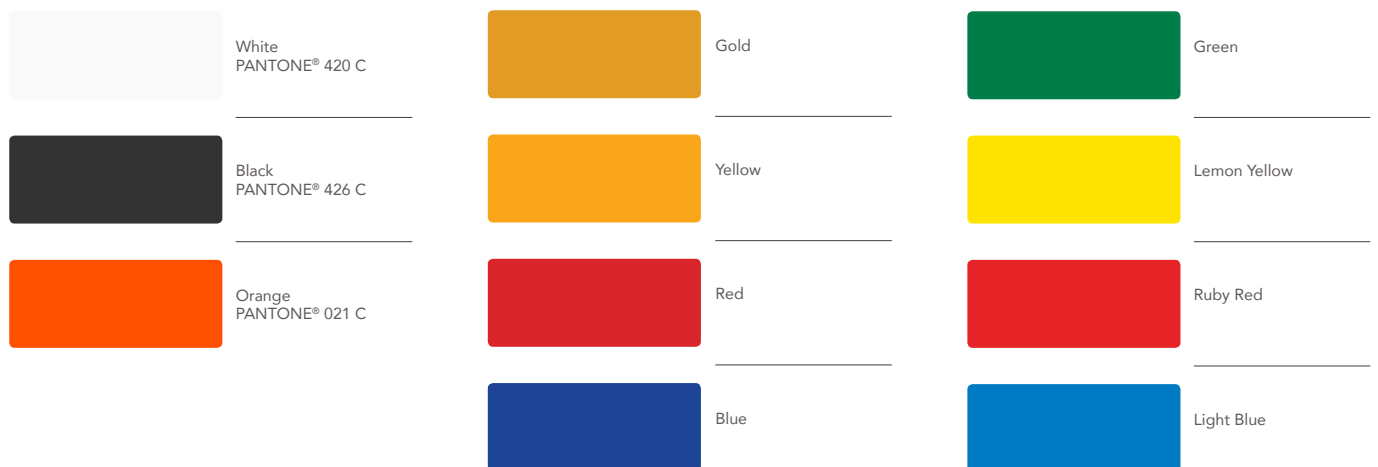

3M Series 680 Reflective is a 7mil flexible vinyl with durability of up to 9 years. Ideal for vehicles, bus graphics and striping on vertical, flat, curved and corrugated surfaces.

680CR Reflective

3M Series 680CR Reflective with comply is a 7mil flexible removable vinyl with durability of up to 9 years. The air release channels in the adhesive help with fast, easy and bubble free application.
